

## Post-Treatment Instructions:

- Do not manipulate the treated area for three hours following treatment. Do NOT receive facial/laser treatments or microdermabrasion after Botox/Dysport injections for at least 10 days. Ask your provider if you're not sure about the timeframe of certain services.
- Do not lie down for 4-6 hours after treatment this will prevent the Botox/Dysport from tracking into the orbit of your eye causing drooping eyelid.
- It could take approximately 4 to 7 days for results to be seen. If the desired result is not seen after two weeks of your treatment you may need additional Botox/Dysport.
- You are charged for the amount of product use. Therefore, you will be charged for a product use during any touchup or subsequent appointments.
- Do NOT perform activities involving straining, heavy lifting or vigorous exercise for six hours after treatment. This will keep the Botox/Dysport in the injected area and not elsewhere.
